Today is International Museum Day 2020. This year's edition is dedicated to a topic we particularly care about: Diversity & Inclusion.

We virtually celebrate it with "Roots of the present", Generali's museum in Rome that promotes the Italian historical and archaeological heritage. Recognizing the fundamental importance of inclusion for easy access to culture, our museum has developed a virtual interactive tour, didactic activities and online courses for schools and special assisted tours for visitors with visual and hearing impairments.

As the pandemic has shown how crucial inclusion is now, our museum is re-organizing its on-site activities. In the meantime, we invite you to take a tour on "Roots of the present"'s website.

See you soon!
